

# Weekly Report

Yuxin Ma

09.14.2015 - 09.20.2015

## Projects

### Spark Workflow

This week we have finished the following points:

- The intermediate outputs for each Spark executor can be stored now.
- For implementation, we have decided to extract all the outputs from Spark and perform off-line visualization.
- I am writing the section of “data and task abstraction”.

### Plan fo the Next Week

- Finish the draft.
